**Subject: Water Licence Renewal Application for the Charter Community of Tsiigehtchic.**

At the request of the Charter Community of Tsiigehtchic (Tsiigehtchic), Dillon Consulting Limited (Dillon) has assisted to create their Water Licence Renewal Application. Enclosed is Tsiigehtchic's application for the renewal of Municipal Water License (G16L3-002). The current license expires on December 31, 2021.

Plans and Reports Associated with this Water Licence renewal application:

- Water Treatment Plant Operation and Maintenance Plan;
- Sewage Disposal Facility Operation and Maintenance Plan;
- Solid Waste Management Operation and Maintenance Plan; and
- Spill Contingency Plan
- Tsiigehtchic Preliminary Solid Waste Design Options Report
- Scaled Site Plans and Figures

O&M Templates from the Gwich'in Land and Water Board (GLWB) Resources have been completed for this submission. Dillon is preparing updated O&M Plans for Tsiigehtchic and will upload to them to the registry when completed. A Preliminary Solid Waste Design Options report has been included in this application, to discuss options during the initial review ahead of revisions. A Preliminary Screening was completed for the Tsiigehtchic Water Licence on May 1, 2000 and covered the current operations detailed under the Water Licence. In the opinion of the GLWB, the "Tsiigehtchic's application for a Water Licence (renewal) will not adversely harm the environment nor does it cause significant public concern." Based on the previous Preliminary Screening, the application is anticipated to be exempt from the preliminary screening process.

Should you have any questions or concerns, please feel free to contact the undersigned at (867) 920 - 4555 ext. 4106.

Yours sincerely,
