Re: Gahcho Kue Mine 2018 AEMP Annual Report V.2

Dear Ms. Love:

As requested by the Mackenzie Valley Land and Water Board (MVLWB), De Beers Canada Inc. (De Beers) would like to submit Version 2 of the 2018 Aquatics Effects Monitoring Program (AEMP) Annual Report. This report is required under Part I of the Water License, MV2005L2-0015. The goal of the AEMP is to address potential Mine- related effects to the receiving aquatic ecosystem in a scientifically defensible manner. Version 2 has been updated as per Table 1 - Board Directives for resubmission of 2018 Annual Report as provided to De Beers by MVLWB on August 8, 2019.

Should you have any questions or concerns, please feel free to contact me by phone at (867) 445-1485 or by email at william.liu@debeersgroup.com.

Sincerely,

William Liu Regulatory
