Distribution List

Dear Sir/Madam:

**Receipt of documents to support DRAFT Type A Water Licence and Type A Land Use Permit Applications for:
De Beers Canada Inc. Gahcho Kue Project, NT**

The Mackenzie Valley Land and Water Board (MVLWB) has received additional documents from De Beers Canada Inc. regarding the Gahcho Kue Project:

- A cover letter (dated May 10, 2013) that remarks on the current status of the Environmental Impact Review, updates on recent involvement in engagement regarding the project; and the submission of the following monitoring and management plans and one report:
- Vegetation and Soils Monitoring Program (VSMP);
- Incinerator Management Plan (IMP);
- Landfarm Management Plan (LMP); and,
- 2012 East lake Fish Tissue Chemistry Supplemental Monitoring Report for the Gahcho Kue Project.

These documents are in addition to those that were circulated by the MVLWB on May 1st and 9th, 2013, and are also available on our public registry at www.mvlwb.com. This information has been provided to support the DRAFT Water Licence and Land Use Permit Applications for this project.

The MVLWB is circulating these documents for your notification; no formal review of these documents will be conducted by the MVLWB at this time as the Mackenzie Valley Environmental Impact Review Board has not yet completed the Environmental Impact Review for this project.

If you have any questions or concerns regarding this file, please contact me at (867) 766-7468 or jpotten@mvlwb.com.

Yours sincerely,

A handwritten signature in blue ink, appearing to read "J. Potten".
