A	Report Date: 07   09   21	Report Time: 3:50 pm	<input checked="" type="checkbox"/> Original Spill Report		Report Number:
	Occurrence Date: 07   08   21	Occurrence Time: 5:20 pm	OR <input type="checkbox"/> Update # _____ to the Original Spill Report		
C	Land Use Permit Number (if applicable): MV2019X0007		Water Licence Number (if applicable): MV2007L8-0031		
D	Geographic Place Name or Distance and Direction from the Named Location: Giant Mine			Region: <input checked="" type="checkbox"/> NT <input type="checkbox"/> Nunavut <input type="checkbox"/> Adjacent Jurisdiction or Ocean	
E	Latitude: _____ Degrees _____ Minutes _____ Seconds		Longitude: _____ Degrees _____ Minutes _____ Seconds		
F	Responsible Party or Vessel Name: Parsons Inc.		Responsible Party Address or Office Location: Yellowknife		
G	Any Contractor Involved: Nahanni Construction Ltd.		Contractor Address or Office Location: Yellowknife		
H	Product Spilled: <input type="checkbox"/> Potential Spill Fuel and allied petroleum products	Quantity in Litres, Kilograms or Cubic Metres: approximately 90 L	U.N. Number:		
I	Spill Source: drill rig fuel tanks and hydraulic system	Spill Cause: rig turned over	Area of Contamination in Square Metres: less than 20 square metres		
J	Factors Affecting Spill or Recovery: gravelly surface	Describe Any Assistance Required:	Hazards to Persons, Property or Environment:		
K	Additional Information, Comments, Actions Proposed or Taken to Contain, Recover or Dispose of Spilled Product and Contaminated Materials: On July 8, 2021, a drilling subcontractor was working within an existing gravelly lined and bermed work area—formerly designed for decontamination of equipment—between Baker Creek and B2 Pit. At approximately 5:20 pm, the truck-mounted drill rig equipment destabilized, resulting in the equipment being flipped onto its side. Consequently, fuel and allied petroleum fluids spilled from the equipment onto the gravelly surface within the lined area. The subcontractors completed their initial spill response by installing adsorbent pads onto the gravelly surface, preventing any further spread of the spill. The work area was surrounded by concrete block walls, except along the eastern perimeter, where concrete blocks were removed to allow portions of the equipment's rig platform to access the borehole location. However, it appeared that the spill had been primarily contained within the work area.				
L	Reported to Spill Line by: Norlito Cezar	Position: Environmental Manager	Employer: Parsons Inc.	Location Calling From: Yellowknife	Telephone: (867) 669-3725
M	Any Alternate Contact: Doug Hayes	Position: Mine Manager	Employer: Parsons Inc.	Alternate Contact Location: Yellowknife	Alternate Telephone: (867) 669-3715
