**Subject:** Giant Mine Remediation Project - Request for extension

Hi Shannon,

I would like to request an extension to the due date to submit the Proponent response to Reviewer comments on the application to Tuesday, June 25 in order to provide detailed and consistent responses across all the 7 ORS review packages. It is felt that this extension will allow us to provide better information in advance of the technical session. It is not our intention to cause any delays to the technical session dates, as we have already committed to these dates with our technical advisory team. If you require any additional information or would like to discuss further, please do not hesitate to contact me at 867-669-2461.

Regards,

Candace DeCoste  
Regulatory Manager, Giant Mine Remediation Project
