Mackenzie Valley Land and Water Board
7th Floor, 4922 48th St, PO Box 2130
Yellowknife, NT
X1A 2P6

Attention: Shannon Allerston, Regulatory Specialist

Dear Ms. Allerston,

RE: Giant Mine Remediation Project (MV2007L8-0031) - Water Compensation Claim Process

Thank you for your August 28, 2019 email enclosing an outline of the general process the Board has chosen to implement for considering claims for water compensation in this proceeding.

As you know, the City of Yellowknife has made two separate notifications of claims for water compensation. The City appreciates that the details of the process for the water compensation component of this proceeding are still being confirmed. The City would like the opportunity to issue Information Requests to the applicant as part of this process. As such, the City would like to confirm that the Board in issuing its Directive will provide for a procedure for parties to ask Information Requests of the applicant, in accordance with the requirements of procedural fairness and consistent with Rule 62 of the MVLWB Rules of Procedure.

Please let us know whether you require anything more formal from us in this regard at this time.

Sincerely,

Kerry L. Penney
Director, Policy, Communications & Economic Development
