Dear Shannon,

Our sub-lease ran out at the end of November 219. We paid our annual lease fee in January under a provision from the city in lieu of an actual sub-lease. The City of Yellowknife is in final negotiations with the GNWT for an access agreement which we hope will be finalized shortly. Once the access agreement has been signed a sub-lease will be issued to us. In the meantime we are functioning as normal.

I hope this answers your question.

Helmut

I'll let Helmut address this question as he is more up to date on the issue than I.
Ryan

Hi Ryan,

Can you give us an update on the status of the sub-lease the Historical Society has with the City. Last we heard it had expired in October 2019 (I believe). Has this sub-lease been renewed?

Thanks,
Shannon
