Hi Shannon,

I left a message on your voice mail regarding having a conversation to help me understand the claim for compensation process as I have a couple members that are thinking of putting in claims(If they still can). I've heard a few different things about the due date for these claims and would like to clarify so I can address the membership with information.

I'm around all day today and tomorrow and would be happy to stop by the office if that works better for you.

Thanks in advance,
Frank Dwyer
