Dear Patrick,

Re: Taltson Management Plans – Approved – Northwest Territories Power Corporation – Hydroelectric Facility – Taltson, NT

The Mackenzie Valley Land and Water Board (Board) received the updated Erosion and Sediment Control Plan Version 4.0, Waste Management Plan Version 10.0, Spill Contingency Plan Version 10.0, and Public Engagement Plan Version 3.0 submitted by the Northwest Territories Power Corporation (NTPC) on July 14, 2022 as required by the Board's July 11, 2022 Decision Letter.¹ The Erosion and Sediment Control Plan Version 4.0 applies to only to Permit MV2020X0004 while the Waste Management Plan Version 10.0, Spill Contingency Plan Version 10.0, and Public Engagement Plan Version 3.0 all replace earlier versions under both Permit MV2020X0004 and Licence MV2011L4-0002.

Board staff have conducted a conformity check and determined that the submissions meet the requirements set out in the Board's Decision Letter. The Taltson Overhaul Erosion and Sediment Control Plan, the Taltson Hydroelectric Facility Waste Management Plan, Spill Contingency Plan, and Public Engagement Plan are hereby considered approved.

Please direct questions or concerns regarding this letter to [Shelagh Montgomery](#) in writing.

Yours sincerely,

A handwritten signature in black ink, appearing to be "SA", is written over a light blue rectangular background.

Shannon Allerston
Regulatory Specialist
