Subject: FW: MV2011L4-0002 - NTPC - Approval - Modification - Turbine & Generator Refurbishment

Hello Shannon, Andy, Josh and Wendy,

I wanted to follow up on a phone call I received from Josh recently and provide a high level update on Taltson Overhaul shutdown outlined in the approved Modification request.

NTPC provided notification to all stakeholders outlined in the approved Engagement Plan on February 24, 2023. This email is attached for reference.

The overhaul shutdown began on Friday May 5, 2023. NTPC amended the DFO Fisheries Act Authorization for Taltson Hydro for the Overhaul shutdown. As part of this amendment various mitigations and monitoring will be completed in 2023. As per the approved Taltson AEMP all of the results of the mitigations and monitoring for the overhaul will be submitted to the MVLWB under the AEMP.

Patrick and Jaclyn are managing this project so please follow up with them if you require any other information.

Thanks for your time and hope all is well.

Cheers,

Matt
