Attention: Angela Love

Dear Ms. Love:

**Re: Enbridge Pipelines (NW) Inc. (“Enbridge”)
LUP MV2013P0011
Final Clearance Request - Update**

Upon review and following further discussion with Mackenzie Valley Land and Water Board (“Board”) staff, this letter provides an updated request from Enbridge, to the Board, for final clearance of Land Use Permit (“LUP”) MV2013P0011 which was issued to Enbridge for use of off right-of-way lands in support of operations and maintenance activities on the Norman Wells (Line 21) pipeline.

Activities and locations of land use that were included under MV2006P0018 are described comprehensively in Enbridge’s application for LUP renewal filed May 29, 2013 and related submissions. Land Use Permit MV2013P0011 was issued to Enbridge on July 18, 2013, for continued activities and use of lands that were previously included in LUP MV2006P0018.

In the application of Permit MV2013P0011, Enbridge paid land use fees for a total of [\\$12,115](#) which accounted for 240.3 ha to be utilized. Out of 131.7 ha attributed to access trails, only 47.2 ha of trails were utilized over the permit period. Assuming for the purpose of calculation that all other permitted areas were utilized, Enbridge used 156 ha in total and accordingly requests a refund of \$4,215.00 to be paid based on the following recalculation of land use fees adjusted to reflect the actual trails used during the period of the permit:

$(156 \text{ ha} - 2 \text{ ha}) * 50 = \7700	
Application	\$150
Assignment	\$50
	<hr/>
	\$7900

Appendix 1 (attached) identifies the actual access trails used during the period along with the corresponding reporting year(s) for ease of reference.

Should the Board require any further information in regards to Enbridge's request for final clearance, please contact the undersigned.

Yours truly,

Karin Schmidt
