Subject: RE: Pro Core Drilling Quarry Extension
Date: Thursday, May 30, 2019 4:57:00 PM

Hi Marjorie and Darrell;

This engagement log is not in compliance with the Board's [Engagement Guidelines for Applicants and Holders of Water Licences and Land Use Permits](#); the guidelines require written notification *and follow-up* to confirm receipt/outstanding issues for Extension Requests. Typically, a phone call following email or written contact can satisfy follow-up requirements.

For NWT Metis Nation, you can try providing written notification by fax to 867-872-3586. Please follow up with NWTMN following written contact, and also follow up with all other contacted organizations and document this activity in an updated engagement log.

I note that the [April 24, 2019 Incomplete Letter](#) also requested submittal of a copy of your current certificate of corporate registration from the government of the northwest territories, which has not been provided.

Please provide the requested information so this Extension Request can be deemed complete and sent for review. I am available if you have any questions.

Julian Morse

Subject: Pro Core Drilling Quarry Extension

Hi Julian,

After Darrell had problems sending off his request for the Quarry Extension, I sent Emails to the concerned First Nations, as per the attached completed Engagement Log. I have not heard back from any of the recipients, except for Ursula Vogt. I received a message back from the Northwest Territories First Nations saying it would not except my email, so it was blocked.

Because the permit expired on May 21, I indicated that in the email.

The email stated: *Please be advised that Pro Core Drilling is applying to the Mackenzie Valley Land and Water Board for a two year extension to their land use permit (MV2013Q0017) which expired on May 21, 2019. The purpose of the extension is to allow Pro Core Drilling to continue with quarry operations at the gravel pit located north of Km 34.1 on NWT Highway No. 5. If you have any questions or concerns, please contact Darrell Dean by email or phone at 875-8601 (cell) or 874-3907 (work).*

Please contract Darrell directly if you required additional information.

Thanks,

Marjorie Loupret
