Dear Darrel Dean,

**Re: ProCore Drilling Ltd.– Land Use Permit – Final Plan Request – Quarry Operation – Highway 5, Mile 21**

According to the Mackenzie Valley Land and Water Board (Board) records, Land Use Permit MV2013Q0017 (Permit) for the Quarry Operation (Project) expired on May 21, 2021.

No extensions to the term of this expired Permit will be considered under subsection 26(6) of the Mackenzie Valley Land Use Regulations (MVLUR). Site restoration, clean up, and removal of equipment, materials, buildings, etc. should now be complete; if these activities have not yet been completed, a new permit may be required to conduct these activities.

A final plan must be submitted to the Board within 60 days of the expiry of the Permit, as per section 29 of the MVLUR. The final plan must include:

1. A map, normally at a scale of 1:50,000, showing the location, area, and distances of all Project activities. All maps must have the north indicator, scale, and coordinates clearly marked;
2. GIS data, if available; and
3. A summary of the hectares utilized in each aspect of the Project.

For more information on final plan requirements and processes, refer to the LWB *Guide to the Land Use Permitting Process*.<sup>1</sup>
