Quarry Permit 2018QP0020

Dear Ms. Mullaney

The above referenced Land Use Permit expires January 7, 2020 and we would like to request a 2 year extension.

Our company has utilized this location to obtain gravel for various contracts in the South Slave area and are requesting the extension based on the same conditions as the existing Land Use Permit. We are not changing any facets of the operations as originally applied for.

I have attached our Engagement log with respect to this request which will be updated mid January.

We trust the foregoing to be satisfactory, however should you require further information please contact me at 867-874-3243 or by email at [twalsh@rowes.ca](mailto:twalsh@rowes.ca)

Sincerely,

Hi Trudie,

Council met on October 15<sup>th</sup> and agree that they have no concern with either application being submitted to the Mackenzie Valley Land and Water Board (clay pit at Hwy 2 Km 15.7 and sand pit at Hwy 6 Km 7.8).

Council agrees that if applications are not within the Enterprise Boundaries that they will be left to the affected communities to respond to.

Thank you  
Tammy
