Dear Amy Burt,

**Re: GNWT – Department of Finance– Land Use Permit – Final Plan Request – Miscellaneous – Fibre Optic Line**

According to the Mackenzie Valley Land and Water Board (Board) records, Land Use Permit MV2014X0027 (Permit) for the Fibre Optic Project (Project) expired on December 15, 2019

As noted in Board staff's letter of September 17, 2019, no extensions to the term of this expired Permit will be considered under subsection 26(6) of the Mackenzie Valley Land Use Regulations (MVLUR). Site restoration, clean up, and removal of equipment, materials, buildings, etc. should now be complete; if these activities have not yet been completed, a new permit may be required to conduct these activities.

A final plan must be submitted to the Board within 60 days of the expiry of the Permit, as per section 29 of the MVLUR. The final plan must include:

1. A map, normally at a scale of 1:50,000, showing the location, area, and distances of all Project activities. All maps must have the north indicator, scale, and coordinates clearly marked;
2. GIS data, if available; and
3. A summary of the hectares utilized in each aspect of the Project.

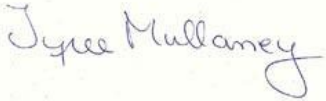

For more information on final plan requirements and processes, refer to the LWB *Guide to the Land Use Permitting Process*.<sup>1</sup>
