Dear Chiefs:

Need for a Meeting to Clarify Harmonized Process for Line 21 Review

Thank you for your letters of July 28, 2017, received August 1, 2017, concerning the regulatory review of the Enbridge Line 21 pipeline repair project by the Mackenzie Valley Land and Water Board (MVLWB) and the National Energy Board (NEB). I am responding on behalf of myself, Premier McLeod and Minister R. C. McLeod.

The GNWT is participating in both board processes in relation to its land and water responsibilities. As a matter of public record, the GNWT has stated its support to both boards for a coordinated review of the Line 21 repair project.

I want to assure you that the GNWT takes its consultation responsibilities seriously and will ensure that it meets its consultation obligations as they arise.

Sincerely,

Louis Sebert
Minister of Lands

c. [See Distribution List]

Distribution List
