Subject: Gold Terra Notification: EF-75 - Drilling Commenced on GTCM23-055 - MV2018C0023
Date: Monday, April 17, 2023 9:02:44 AM

Hi Clint and Karine,

I am emailing to notify you that the EF-75 drill setup on GTCM23-055 was completed late last night, and casing was set in the early hours of the morning.

Please note that water will be sourced from Kam Lake. Additionally, this drill program will make use of a closed loop flocculant tank to recycle water, with cuttings being disposed of by vac-truck into Middle Pud Tailings Containment Area, as per Newmont's request. Fresh-water bypass will be discharged at a Newmont approved location approximately 200 meters from Kam Lake.

GTCM23-055 Coordinates:

634959.9	6925837.8
----------	-----------

Fresh Water Bypass Discharge:

634700	6925550
--------	---------

Pump Location:

634525	6924956
--------	---------

Pump Depth: Approximately 2 feet

If you have any questions or concerns, please do not hesitate to email me back or reach me by phone at (778) 269-0704.

Thanks in advance,

Aaron Doan
