Re: North Arrow Minerals Inc. (North Arrow) - Amendment to Land Use Permit #MV2019C0031

Dear Mr. Hotson,

North Arrow Minerals has staked eight claims (M11779-M11784 and M11802, M11803) located just southeast of Mackay Lake and southeast of our recently North Arrow 'assigned' Lac de Gras Project (LDG). The LDG Project, consisting of mineral leases and claims, was previously registered with the MVLWB under Arctic Canadian Diamond Company (ACDC). We would like to apply, by way of this letter (and additional documents), to have LDG's Land Use Permit **#MV2019C0031** ("the Land Use Permit") amended to include these additional claims (see map below for the new claim numbers and map locations).

North Arrow is planning a drill program at the LDG Project in the spring of 2024 and would like to take the opportunity to drill targets on the claims at the MacKay properties as well.

Below this letter you will find a map of the properties followed by a list of the LDG and MacKay claims and leases and their pertinent information. To the email this letter came with I have also attached updated Pre-submission Engagement Documentation, and the GIS data related for the new property mineral claims. The security calculations for LUP #MV2019C0031 cover cleanup of 6 drill locations so the bond in place should be more than sufficient as all previous drill locations have been remediated and inspected. The Spill Contingency Plan and Waste Management Plan are written to cover the large LDG land package and remain easily applicable to the new claims.

Should you have any questions or comments regarding this submission, please contact the undersigned at your convenience at 778-229-7194 or by email at nthomas@northarrowminerals.com.

Yours truly,

Nick Thomas
