Subject: RE: Town Of Hay River - Desludging Operations?

Good morning Ryan,

Thanks for the response. Likely during the spring inspection more follow-up questions will be asked about it and hopefully more concrete plans are established by then. Just as a reminder, the WL does state that prior to sludge removal offsite, remediation criteria must be met and a 10-day notice to the board and inspector is required prior to removal of sludge for re-use (F.13 & F.14). A quick email notification will suffice when the time comes.

Have a great summer!

Mársı | Kinanāskomitin | Thank you | Merci | Hąı' | Quana | Qujannamiik | Quyanainni | Máhsı | Máhsı | Mahsı

Hi Joshua,

Yes, desludging of cells 3 & 4 is something we're trying to have completed within the next few months and we're hoping to have sludge volumes gauged soon. Nothing else has been determined and our next steps will be to consult with Council to determine options for procurement. Once we have final approval we'll move ahead to complete as quick as possible.

Regards,
Ryan

Hey Ryan!

Must have missed you for the day but I thought I would just send an email asking a bit about the planned desludging work that you might be doing this summer. Do you happen to know which cells you will be desludging this year? Where are you planning on putting the sludge materials? Do you have enough room in the pit for this work? Just wanting to get some clarity on the project.

Hope everything is going well for you and maybe chat later this week if you have time.

Regards,

Mársı | Kinanāskomitin | Thank you | Merci | Hąı' | Quana | Qujannamiik | Quyanainni | Máhsı | Máhsı | Mahsi
