Hi Mike,

Thanks for forwarding the incident reports for this fire event at the landfill. In future, please notify ENR Inspectors of fire events as soon as possible, even if it is minor. The more information we have, the better able we can assist/respond to fire emergency situations at the landfill.

As Erica indicated, please ensure this occurrence is referenced in the forthcoming annual report.

Regards,

Wendy

Hi again,

One more thing I should have mentioned: please make sure to include reference to this in the Town's 2021 Annual Report (you can hyperlink to the registry post if you like).

Thanks Mike for keeping us in the loop.

I'll let Wendy speak to whether there are any follow-up actions to be taken; on my end, I'll post your email and attachments to the public registry.

Erica

Subject: Surface Fire at SWF

Hi Wendy,

The Town of Hay River had a minor surface fire at the Solid Waste Facility last week on April 29th that was quickly contained and extinguished. The suspected source was a recently dumped load of garbage.

I've attached two incident reports, one from our contractor that operates the facility and the second from our fire department that responded to the call.

The Town's water licence doesn't detail any reporting requirements for landfill fires but given the history I thought it would be good to keep yourself and board staff informed.

If you have any questions, please let me know.

Thanks,

Mike Auge, P. Eng
