Pine Point Mining Limited

Attention: Andrew Williams

RE: Waste Disposal at Hay River Facilities

Dear Andrew,

This letter is to provide official approval for Pine Point Mining Limited (PPML) to use the Hay River Solid Waste Facility and the Hay River Sewage Lagoon for disposal of waste materials from the exploration activities that PPML are conducting in the Pine Point District in accordance with the Waste Management Plan v.4 that was provided to the Town on January 14th, 2021. As per the phone discussions that have taken place, please note that the Town will not be accepting hazardous materials from this project. Additionally, the Town is currently undergoing a review of our fee structure for both the landfill and the lagoon and this may result in increased fees associated with the usage of these facilities in the future.

If the expected volumes or types of waste associated with this project change, please confirm any new waste management plans with the Town.

If you have any questions or concerns with this project, please contact Mike Auge, Director of Public Works by telephone at (867) 874-6522 or by email at pwsdirector@hayriver.com.

Yours sincerely,

A handwritten signature in black ink, appearing to read "G. Smith".
