Hi Kim,

We've mapped out the coordinates and have suggested new coordinates below.

Let me know if you'd like a map with the revised coordinates.

Thanks

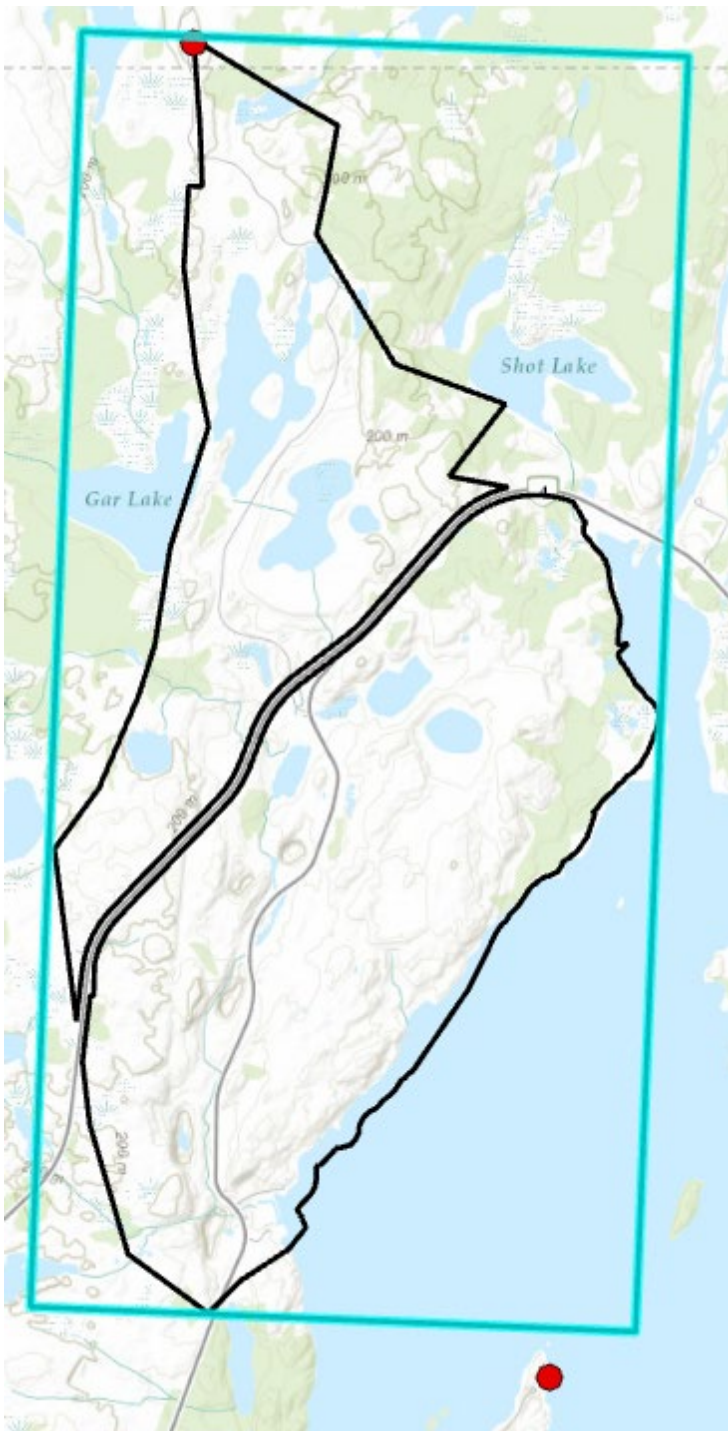

Candace

Subject: FW: Giant Mine Remediation Project boundary coordinates

Hi Candace,

The points provided wouldn't quite form a rectangle around the entire site, based on the new proposed boundary, shown in black. See map below (red dots were provided by MVLWB):

CENTROID_X	CENTROID_Y	EXT_MIN_X	EXT_MIN_Y	EXT_MAX_X	EXT_MAX_Y
-114.351876	62.512336	-114.386198	62.481034	-114.317491	62.543618

These are more appropriate Min and Max coordinates.

If you need me to make an official map please let me know.

Thanks,

Barbara

Hi Rashaad,

Can you confirm the coordinates below? Can you draw a box around our site map using the coordinates below?

If you have any questions, please let me know.

Thanks

Candace

Subject: Giant Mine Remediation Project boundary coordinates

Good morning Candice,

I was hoping to confirm the maximum and minimum coordinates (in latitude, longitude) of the Giant Mine Remediation Project site boundaries to ensure I encompass the entire boundary in the preliminary screening form. From the "Administration_ProjectBoundary_Current_NAD83_UTM1" shapefile sent with the Application I came up with the following minimum, maximum coordinates:

Minimum (lat, long): 62°28'43.79" N, 114°19'55.14" W

Maximum (lat, long): 62°32'35.05" N, 114°22'8.98" W

Would you be able to confirm with your GIS expert? Thank you very much,

Kimberley Murray, MSc
