---

Hi Shannon,

The winter road is being constructed under the authority of the above noted land use permit.

As per the condition of the land use permit, plans have been submitted for Board approval.

Fortunately the permit conditions will mitigate environmental concerns from arising.

With ice conditions posing concern for all winter road constructors this year, time is of the essence to get lake ice cleared otherwise freight cannot be delivered to the land use area and will hinder projects.

Please give me a call if you require any further information.

Regards,

Clint

Hi Dave, Clint –

Can I have someone confirm that the winter road construction being completed by CJ Contracting Ltd. is associated with the Bluefish Project only at this point, and not New Discovery? I know the notification has been provided as required for New Discovery, but no management plans associated with the new authorizations have yet been approved.

Thanks,  
Shannon
