---

Hi Jacqueline and Kim,

I wanted to make you aware that ECCC has determined that PPML must apply for a permit under section 73 of the *Species at Risk Act* (SARA) for their Confirmation and Exploration Program.

ECCC is encouraging PPML to apply for a SARA permit as early as possible. ECCC has a 90-day timeline to review and issue a decision on a permit application. If further information is required or there is missing documentation, the 90-day timeline will be paused until the required information has been provided.

Please let us know if you would like to discuss further as I'm not sure if/how this will impact your own review process.

Thanks,  
Victoria
