**Re: Prairie Creek South Yard Access Road Construction**

Inspectors from the Department of Lands have reviewed the above request for the construction of an alternate access road to allow transportation from the Main Camp to the South Yard of the Prairie Creek Mine. This project is associated with Land Use Permit MV2020D0007.

**Part A:**

1. e) The construction and maintenance of site roads and lay down areas.

Due to the erosion that is occurring along the present access route, Inspectors approve the construction of a new road for environmental, operational, and safety reasons. This route will be coming off of the present access, and continuing around the back of and above the lowland area, as seen in the map that was provided. Please adhere to all conditions stated in Land Use Permit MV2020D0007.

Should you have any questions or concerns, please contact the undersigned at 867- 695-1524.

Respectfully,  
Andrew Lirette

Resource Management Officer II  
Department of Lands – Dehcho Region  
Government of the Northwest Territories
