Dear David Harpley:

**Further Study Requested  
Mining and Milling, Prairie Creek**

The Mackenzie Valley Land and Water Board (MVLWB or the Board) met on June 25, 2020 and considered your Application for Land Use Permit MV2020D0007. The Board determined that under paragraph 22(2)(b) of the Mackenzie Valley Land Use Regulations, further study needs to be conducted. Specifically, the following information is required:

1. Additional information respecting the proposed activities for extraction of waste rock and ore from Prairie Creek Mine, the demolition, refurbishment, development and operation of site facilities, storage of fuel, the development of a waste rock pile, construction and maintenance of site roads and lay down areas, quarrying of materials from specific areas, and progressive closure and reclamation of site components, as it relates to both Permit MV2020D0007 and Water Licence MV2020L2-0003, including the closure cost estimate.
2. Changes to additional overlapping management plans (Engagement Plan, Spill Contingency Plan, Waste Management Plan) that apply to both the Permit MV2020D0007 and MV2020L2-0003.

The Board will use the ongoing Water Licence Renewal proceeding for MV2020L2-0003 to collect the information required to make a determination on Permit Renewal Application MV2020D0007.
