File Number MV2020L0014
Type of Operation Microwave Towers
Location Tibbitt to Contwoyto Winter Road (TCWR)

Dear Ms. McIntyre,

An inspection of the fuel transfer locations along the Tibbitt to Contwoyto Winter Road (TCWR) was conducted by Inspectors Clint Ambrose and Karine Gignac on April 8th, 2024. The inspection was carried out to ensure operating conditions annexed to the above noted land use permit were adhered to during this land use operation.

The Inspectors were notified of the upcoming tower re-fueling operations on February 21st, 2024 and personnel & equipment mobilized to the land use area on approximately March 17th, 2024. Three of the four re-fueling locations along the TCWR were inspected; Waite Lake, Long Lake and Lockhart Lake. The Inspectors are pleased to report that no concerns were noted since no obvious hydrocarbon spills or garbage/debris was observed at any of the inspected locations.

Land Use Operations were completed on approximately March 23rd, 2024 and the cooperation of the Contractor to comply with all operating conditions of the land use permit is appreciated.

If you have any questions or concerns, please contact the undersigned at (867) 767-9188 or Ms. Karine Gignac at (867) 767-9187 ext. 24189.

Sincerely,

Clint Ambrose
