Monday, May 31, 2021

Dear Shannon

Please accept this letter as notification as required under Conditions Part B, clause 23 in MV2020L2-0002 require a minimum of 10 days prior to the re-commencement of the land-use operation. We awaiting breakup to be completed, and expect to be mobilizing a small crew in around June 15th.

The project will be overseen by myself, Dave R. Webb who can be contacted at 604 818-1400 or by email to dave@drwgcl.com.

We plan to start preparatory work, leveling the camp trailers and bioreactor, placing the generators, wiring, compressors, shops and other equipment as well as setting up communication systems. This is needed for safety and security reasons. No mining activities will occur until our outstanding Management Plans are accepted by the Board.

Sincerely
New Discovery Mines Ltd.

Per: D.R. Webb
