

Fuel to be stored on the Mon Property

Type of Fuel	Number of Containers	Capacity of Containers	Type of Container	Location
Diesel	1	120,000 ltr	Envirotank	See Map
Diesel	500	205 Ltr	Steel drums	See Map
Gasoline	20	205 Ltr	Steel drums	See Map
Jet A, B	10	205 Ltr	Steel drums	See Map
Propane	10	100 lb	Steel bottle	See Map
Propane	5	10, 20 lb	Steel bottle	See Map

Either diesel fuel will be in a single 120,000 litre double-walled enviro-tank-style tank, OR up to 500 205 litre steel drums. The requirement to place the 120,000 litre tank, and then submit as-installed documentation to receive permits to fill the tank cannot be completed in a single winter road season.

Methods of Fuel Transfer

Diesel, gasoline, and Jet A, B fuel will be transferred using commercial electric or hand operated pumps. Propane will not be transferred.
