Subject: RE: Canadian Zinc Corporation - New Type A Permit and Water Licence Renewal Applications - Information Request Responses (MV2021D0005 MV2021L2-0004)

Hi Kim,

Please find ECCC's responses to MVLWB's questions below:

1. Is a public review necessary for these IR Responses?

ECCC does not require a formal review of the IR responses.

2. Given the amount of information provided in the IR Responses, can the October 8, 2021 deadline for written Interventions from Parties be met?

ECCC would appreciate an extension for the Prairie Creek Mine expansion process so that the public hearing does not overlap with other hearings (i.e., during the week of November 23) and would appreciate the additional time to work on our written intervention given the amount of information provided in the IR responses.

3. Will ECCC have adequate time to respond to Information Request #5 (response due October 1, 2021)?

ECCC is requesting a one (working) day extension (to October 4) to be able to provide a response to IR#5.

If there are any questions please let me know.

Thanks,

Melissa Pinto

Subject: FW: Canadian Zinc Corporation - New Type A Permit and Water Licence Renewal Applications - Information Request Responses (MV2021D0005 MV2021L2-0004)

Hi Melissa,

In addition to the questions posed in the email below, if you could also indicate by the end of the work day Thursday (September 23) if ECCC will have adequate time to respond to [Information Request #5](#) (response due October 1, 2021), that would be helpful for Board staff.

Thanks so much,
Kim

Subject: Canadian Zinc Corporation - New Type A Permit and Water Licence Renewal Applications - Information Request Responses (MV2021D0005 MV2021L2-0004)

To the Canadian Zinc Distribution List;

Yesterday afternoon (September 20, 2021) Canadian Zinc Corporation (CZN) submitted responses to Information Requests (IRs) generated during the Technical Session held August 31 – September 2, 2021 for the Type A Permit and Water Licence Renewal Applications for Prairie Creek Mine:

- [CZN IR Responses](#)

Board staff note that, as per the current version of the [Work Plan \(Version 2\)](#), written Interventions from Parties are due October 8, 2021. It is unclear to Board staff if the Work Plan can still be achieved. If you wish, please review CZN's IR Responses and reply to this email by the **end of the work day Thursday (September 23, 2021)** with answers to the following questions:

1. Is a public review necessary for these IR Responses?

2. Given the amount of information provided in the IR Responses, can the October 8, 2021 deadline for written Interventions from Parties be met?

Recommendations received from Parties will be used to decide if an update to the Work Plan (Version 2) is required.

Please also note that the Board's Old Online Review System (ORS) is no longer functional. Board staff moved the review item for CZN's Type A Permit and Water Licence Renewal Applications for Prairie Creek Mine to the Board's New ORS (see the following [link](#)). This review item was for the initial Applications and is therefore closed, however the page contains all documents related to the Applications.

Thank you for your attention,
Kim
