Hello Dani and Kyle,

I just wanted to give you a heads up on Paramount Resources Liard South authorizations. There were some management plans submitted by Paramount for review in August; Spill, Engagement, Waste, and Closure and Reclamation. The Spill and engagement plans were for confirmation of conformity by Board staff, Waste and Closure were for public review prior for to going to the Board for decision, these latter 2 are on the ORS now. Unfortunately with our switch over to the new ORS these got lost in the shuffle and the process stalled on our end. These plans are required prior to Paramount doing any work on site. It is Board staff understanding that Paramount is working on site now. We are working to expedite the process but thought you should be aware. If you have any questions lease let us know.

Regards,

Chris Hotson
