Subject: RE: Request for written authorization for the water diversion location

Hi Wendy,

The water source location for the Mackenzie River - backup source - 61.52742, -120.62420 (orange marker) has now frozen to a depth where the source is unusable.

Our new proposed coordinates are: 61.52654, -120.62135. (grey marker) (See attached photos of the GPS coordinates and water source location).

We will be re-using the signage from the previous coordinates.

We have not used any water to date however, our operations tomorrow require water use.

Please approve.

Thank you,
Jayden Wiancko
