Hi there,

In accordance with Part F, 4., a) of the City's Water Licence, I am writing to provide notification of an inspection to take place of the Dykes and Control Structures on Trapper's Lake. This is our routine inspection that is required to take place every four years, and will be completed by Tetra Tech. The Licence specifies that notification of the inspection must occur a minimum of two weeks prior to the inspection taking place; therefore, the inspection will not occur until June 6<sup>th</sup> at the earliest. The exact date will be provided once it is determined. If you have any questions or concerns please let me know.

Thank you,
