Dear Mike Auge:

**Land Use Permit – In Preparation for Expiry  
Miscellaneous (Monitoring Wells) – Hay River, NT**

According to the records in the Mackenzie Valley Land and Water Board (MVLWB or the Board) office, Land Use Permit MV2021X0010 will expire on November 28, 2021.

Should additional time be required to complete your land-use operation, please refer to subsection 26(6) of the Mackenzie Valley Land Use Regulations (MVLUR) regarding an extension to the term of a permit. The MVLWB may extend the term of a permit by up to two (2) years. An extension request must be received by our office prior to the expiry of Land Use Permit MV2021X0010 which includes the following information:

1. The reason for the extension request.
2. The length of time being requested for the extension.
3. Any other information which would support the extension request, including the status of the land-use operation.
4. Details regarding engagement specific to this extension request. Additional information can be found on our website: [Engagement Guidelines for Applicants and Holders of Water Licences and Land Use Permits](#).

Alternatively, if you do not wish to proceed with an extension application, then restoration, clean up, and removal of equipment, materials, buildings, etc. must be completed before your Permit expires.

A final plan shall be submitted to the Board within sixty (60) days of the expiry of a Permit, as per section 29 of the MVLUR. A final plan should include:

1. A map, normally at a scale of 1:50,000, showing your location, area, and distances of all land-use operations. Sketches are acceptable, but all maps must have the north indicator, scale, and coordinates clearly marked;
2. A summary of the hectares utilized in each aspect of the land-use operation; and
3. A calculation of land use fees.

.../2

Upon receipt of your final plan, an inspector will conduct a final inspection and the MVLWB will review your file prior to initiate closure of this Permit.

If you have any questions or concerns regarding this letter, please contact Emma Junker, Regulatory Technician at (867) 766-7469.

Yours sincerely,
