Subject: 10 Day Notification of Completion of Land-Use Operation
Date: Tuesday, January 31, 2023 8:24:03 AM
Attachments: [Final Closure and Reclamation Plan Submission \(MV2021L1-0009\).msg](#)

Hi Dani,

Please accept this email as 10 days notification prior to the completion of the land-use operation.

a) the plan for removal or storage of equipment and materials

We are expecting to demobilize the rig and equipment on February 5th, this will take 2-3 days.

Drilling and hazardous waste will be hauled back to Alberta and disposed of at an Imperial approved waste site. Domestic waste will be disposed of at the Fort Simpson landfill.

b) when final cleanup and reclamation of the land used will be completed;

Rollback and reclamation of the site and access road will begin after rig and equipment

demobilization, around Feb 8th. Reclamation activities are expected to be a week in duration. A grader will be brought to the campsite to level the area.

c) when the Final Plan will be submitted

Per the attached email to Tyree, the C&R plan submitted remains unchanged. Additional areas that we used for the project (pullouts on the access road, lease extension at the wellsite) will be part of the reclamation activities in February.

Please let me know if you have any questions.

Thanks,

Esther Choi, E.I.T. (she/her)
