---

Good Morning,

Thanks for the meeting this morning. As mentioned, we have now have the pipeline risers removed and the lines plugged underground at both of the quad bridges (C-50 and A-73). We are working on rolling back the roads (to the quad bridges & and well cut & caps) north of the camp right now. We anticipate about 3 more days to roll back the roads north of the camp and then another week or so to roll back the main road to the highway. M-31 well abandonment operations are wrapping up to today and the rig will be moving off site tomorrow. The main camp is scheduled to be removed mid next week and the old operators camp is to be decommissioned on Monday. That is about all for now.

Thanks,

---
