Re: Prospector's Licence# N34850

Please be advised that Prospector's Licence # N34850 for HWY4 Lithium Ltd. has been issued effective as of October 3, 2023 and is good until March 31, 2024. While the licence number is permanent, the licence must be renewed yearly to cover the period April 1st to March 31st. If the licence card is lost or misplaced we can replace it for a fee of \$2.00 (existing licence number does not change).

Enclosed herewith are the Prospector's Licence Card, plotting guide and a USB wallet card containing important information i.e. Regulations, guidelines, forms etc. for prospecting in the NWT.

This licence is valid for Lands where the Government of the Northwest Territories has administration and control in the NWT, but does not include lands that were excluded from transfer and remain with the Federal Crown. A separate licence can be obtained from Indigenous and Northern Affairs Canada for Federal Crown Lands.

A company must be registered and in good standing with the NWT Companies Registry in order to apply or renew a prospector's licence. For your information, the contact number for the NWT Companies Registry is 867-767-9304.

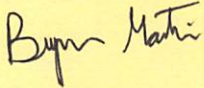

Please note that the NT Mineral Tenure Map Viewer can be accessed by visiting the ITI homepage as follows:
