1	Protection of historical, archaeological, and burial sites	The development of new quarries (and the expansion of existing quarries into previously undisturbed terrain) may place recorded and unrecorded archaeological sites at risk of impact.	We recommend that draft conditions 55 (AOA) and 56 (AIA-High Potential) are retained on the permit. These two conditions replace draft condition 57 (AIA) which should be removed. In addition, we recommend that the Board changes the number of days listed in draft condition 55 from 10 to 30.	Recommendation noted.	Response is satisfactory
