 [EXTERNAL EMAIL]: Use Caution

To the North American Tungsten Corporation Ltd. (NATCL)/Cantung Distribution List;

This email is about the regulatory proceeding for NATCL's Type B Renewal Licence and Type A Permit Applications (see the Board's Online Review System page for the Applications [here](#)).

The initial review has presented some issues that the Board will need to decide on as soon as possible. The Board will also make a decision about the preliminary screening for the Applications as soon as possible. Following these Board decisions, Board staff will update the distribution list and send out a draft Work Plan for the proceeding (if appropriate based on the Board decisions). Reviewers and the Applicant will have an opportunity to comment on the draft Work Plan.

I will be away from the office until July 4. Please contact Shannon Allerston via [email](#) with any immediate questions.

Thank you! -Kim
