Re: Northrock Resources - Summit Creek 2004/05 Drilling Program

The Hamlet of Tulita has received the application for Land and water Permits for Northrock Resources Ltd. Summit Creek 2004/2004 Drilling Program.

The Hamlet has no comments on the specific site, with the exception, on the following within the municipal boundaries of Tulita:

1. Traffic within the municipality, must obey all signs as to using the access road during the winter.
2. Require authorization from the Hamlet for heavy equipment or large vehicles to travel on municipal roads in the community.
3. Use of municipal services i.e. garbage dump, water delivery services, sewage disposal site, solid waste site - must fill out an application at the Hamlet of Tulita to receive these services within the municipal boundary or if transporting into the community from drilling site or camps.
4. Any other activity within the boundary - appreciate notice in writing to the Hamlet of Tulita.

Sincerely,

*Louise Reindeer*
