Attention: Angela Love, Regulatory Specialist

Thank you for the Tulita District Land Corporation's comments. We would like to respond to their comments as follows:

1. We did not one, but three separate consultations in Tulita, December 13, 2006, April 10, 2007 and April 25, 2007 in relation to these permits.
2. A traditional knowledge study was commissioned through Mackay Range Developments with an outside third party and the elders in Tulita in late November, early December 2006 and was received and paid for by Eagle Plains Resources Ltd. Eagle Plains Resources Ltd. as well as any subsidiary company or option/joint venture company continues to remain bound by a confidentiality agreement which is in place around that Traditional Knowledge study.
3. We have sent the email from Stan Stevens received in our offices on June 19th, 2011 that he would be agreeable to us being at Willowhandle Lake camp for those two extended years; and
4. Two job postings were given to the employment officer Taylor Fraser in late March of this year. Two job applicants applied from Tulita. One applicant did not want the job and the other will be working through TerraLogic Exploration (previously Bootleg Exploration) this summer. There was also correspondence between Danny McNeeley of MacKay Range and Jesse Campbell of TerraLogic Exploration with respect to services through MacKay Range.

Yours truly,

EAGLE PLAINS RESOURCES LTD.

Tim J. Termuende, President & C.E.O.

TJT/rc

- Response did not arrive until after extensions were approved

- phone call w/ Rita Clair - she was on holiday so no one sent fax

- for SLWB info but not forwarded bc after approvals.
