**Subject:** RE: S13A-002 - S13L1-005 - Husky Oil - Vertical Drilling

Good afternoon Tony,

Based on my review of the subject applications, it is DFOs' understanding:

- Water usage is limited to 4000 cubic metres drilling and completions operations
- The Mackenzie River be will the sole water source
- Access will occur via an all-weather road and barge landing both permitted previously

Based on this information, DFO has determined that there will be no impacts to fish and fish habitat as per the habitat protection provisions of the *Fisheries Act*.

Let me know if there are any questions,

Rick  
867-669-4926

**Subject:** S13A-002 - S13L1-005 - Husky Oil - Vertical Drilling

To Reviewers,

It has come to our attention that there was a glitch in our online review system and some reviewers did not receive the automatic notification. The review was supposed to be sent out June 12.

Husky is applying for a new vertical drilling program requiring a Land Use Permit and Water Licence. The applications are available on the Online Review System. Please go to the Online Review System to view these applications.

The deadline for review is **July 5, 2013**.

Sorry for any inconvenience.
