

Subject: RE: Water Licence (S13L1-007) Modification Request - Imperial Oil Resources NWT Ltd. - Additional Water Intake at Bear Island

Date: Thursday, July 11, 2019 at 9:06:30 AM Mountain Daylight Time

From: Patrick Clancy

To: Ash Varghese

Hi,

The Department of Environment and Natural Resources has determined that no formal review of this proposed activity is required at this time. However, if changes to the Water Licence Terms and Conditions, or SNP are required, or any of the activities are outside the scope of the project, it could be considered to be an amendment to the Water Licence.

As it stands ENR concludes no further formal review is necessary.

Subject: Water Licence (S13L1-007) Modification Request - Imperial Oil Resources NWT Ltd.

Dear Members of the Imperial Oil Distribution List,

Imperial Oil Resources NWT Ltd. (Licencee – S13L1-007) has submitted a request for a modification to the Water Licence S13L1-007 (see attached).

The request is to withdraw water from the Mackenzie River at a location (Bear Island) other than the approved water intake for the operation.

This is necessary for the Licencee, for usage of water for kill fluid and cement mixing during well abandonment activities (abandonment of 9 wells at the Bear Island Terminal Location).

The proposal is not in contravention of any Acts or the Licence and has been received by the Board more than 60 days prior to the commencement of the modification.

The SLWB is requesting that all stakeholders or affected parties review the proposal and respond to the SLWB if you would like a formal review of this request to be undertaken.

The SLWB will also be requesting the Water Resources Inspector to provide written confirmation that the proposed modification is acceptable.

Please respond to this e-mail by **July 23, 2019** if you would like the SLWB to undertake a formal review of this proposed modification.

Regards,

Aswathy Mary Varghese
