Subject: S16Q-003 Recommendation for File Closure

Good Morning Samantha,

Page 1 of 2

After some discussion, it has come to my attention that the structure noted in the last report (June 8, 2022) was onsite prior to the quarrying operation. This letter is to acknowledge this and recommend the file for closure. The Hamlet must submit the final plans to the Sahtu Land and Water Board for review and acceptance before the file can officially close.

If you have any questions or concerns, please reach out to me.

Cheers,

JG
