Sent by email

Dear Murray Somers,

**Re: Crown Indigenous Relations and Northern Affairs Canada – Contaminants and Remediation Division
– Extension Issuance Package – Land Use Permit S17D-003 – Remediation – Great Bear Lake, NT**

The Sahtu Land and Water Board (Board) met on December 7, 2022 and considered CIRNAC-CARD's request to extend Land Use Permit (Permit) S17D-003 for the Great Bear Lake Remediation Project in accordance with the *Mackenzie Valley Resource Management Act* (MVRMA).

The Board has approved the Permit extension. The Permit (attached) now expires on July 23, 2024. The Permit extension is supported by the Board's Reasons for Decision as follows:

- The Project has been previously approved by the Board with reasons,
- The Project has not been altered or changed in scope and meets the requirements of the Exemption List Regulations to be considered exempt from preliminary screening under the *Mackenzie Valley Resource Management Act*,
- The Project continues to meet the conformity requirements of the Sahtu Land Use Plan,
- The Project has fulfilled basic requirements for engagement and has received support from the Operations Committee, Inspectors, and GNWT-ENR.

These documents are posted on the Board's Public Registry.¹

Inspectors

The Inspectors referred to in the Permit can be contacted at the following office:

Crown-Indigenous Relations and Northern Affairs
P.O. Box 1500
4923 – 52nd Street
Yellowknife NT X1A 2R3
Phone: 867-669-2442 or 867-669-2466
Fax: 867-669-2702

Permit Processes and Additional Information

Sections 5 and 6 of the Land and Water Boards' *Guide to the Land Use Permitting Process*² (Guide) contain detailed information on permit enforcement and potential post-issuance processes, such as amendments to conditions, and assignment to another company. Please be familiar with these sections of the Guide and reach out to Board staff with any questions about Board processes related to the Permit.

Full cooperation of CIRNAC-CARD is anticipated and appreciated. Please contact Benjamin Roy via email broy@slwb.com with any questions or concerns regarding this letter.

Yours sincerely,

Tanya MacIntosh
Chair, Sahtu Land and Water Board

SAHTU Land & Water Board Land Use Permit

| | |
|----------------------------|--|
| Permit Class Type A | Permit No. S17D-003 (extension) |
|----------------------------|--|

Subject to the Mackenzie Valley Land Use Regulations and the terms and conditions in this permit, authority is hereby granted to:

**Crown Indigenous Relations and Northern Affairs Canada –
Contaminants and Remediation Division
4923 52nd Ave
Yellowknife, NT X1A 1R1**

Permittee

To proceed with the land use operation described in the application of:

| | |
|--|---------------------|
| Signature: Murray Somers, Crown Indigenous Relations and Northern Affairs Canada – Contaminants and Remediation Division | Date: July 24, 2017 |
| Type of Land Use Operations: Great Bear Lake Remediation Project | |
| Location: Great Bear Lake, NT | |

This permit may be assigned, extended, discontinued, suspended, or cancelled pursuant to the *Mackenzie Valley Land Use Regulations*.

Dated at: Fort Good Hope

This 07 Day of December Year: 2022

Witness _____

Tanya MacIntosh, Chair
SAHTU Land & Water Board

Commencement Date: July 24, 2022

Expiry Date: July 23, 2024

NOTE

IT IS A CONDITION OF THIS PERMIT THAT THE PERMITTEE COMPLY WITH THE PROVISIONS OF THE MACKENZIE VALLEY RESOURCE MANAGEMENT ACT AND REGULATIONS AND THE TERMS AND CONDITIONS SET OUT HEREIN. A FAILURE TO COMPLY MAY RESULT IN SUSPENSION OR CANCELLATION OF THIS PERMIT BY THE BOARD.

THIS PERMIT SHALL BE POSTED OR BE AVAILABLE ON SITE.

**If you have any questions please call the SAHTU Land & Water Board at
(867) 598-2413**

Conditions Annexed to and Forming Part of Land Use Permit S17D-003

Part A: Scope of Permit

1. This Permit entitles the Permittee to conduct the following land-use operation associated with the remediation activities required at the abandoned historic industrial properties of Silver Bear Mines (made up of Terra, Northrim, Norex, Graham Vein and Smallwood mine sites), El Bonanza and Bonanza Mine, Contact Lake Mine and the Sawmill Bay site, collectively referred as the Great Bear Lake Sites Remediation Project. The Great Bear Lake Sites are located on or adjacent to the eastern shore of Great Bear Lake, within the Sahtu Region of the Northwest Territories. As described in the complete application, the scope of activities include:
 - a) Construction, operation, maintenance, and decommissioning of a camp and satellite camps;
 - b) Use of equipment and machines;
 - c) Use and storage of fuel;
 - d) Quarrying;
 - e) Construction and maintenance of site roads and winter roads;
 - f) Drum and product consolidation;
 - g) Debris management;
 - h) Dock removal;
 - i) Closing mine openings;
 - j) Remediation of hazardous and non-hazardous Wastes, rock, soil, sediment, Tailings, impacted Water, buildings and infrastructure, docks, culverts
 - k) Waste rock cover (Contact Lake);
 - l) Wetland enhancement between Ho Hum TCA and Moose Bay;
 - m) Construction, operation, maintenance, and closure of a Landfill;
 - n) Hazardous waste disposal;
 - o) Road grading, installation of culverts, and temporary docks; Building demolition;
 - p) Construction, operation, maintenance, and closure of a Landfarm; and
 - q) Contaminated soil excavation and treatment.
2. This Permit is issued subject to the conditions contained herein with respect to the use of land for the activities and area identified in Part A, item 1 of this Permit.
3. Compliance with the terms and conditions of this Permit does not excuse the Permittee from its obligation to comply with the requirements of any applicable Federal, Territorial, or Municipal laws.

Part B: Definitions (defined terms are capitalized throughout the Permit)

Act - the *Mackenzie Valley Resource Management Act*.

Board - the Sahtu Land and Water Board established under Part 3 of the Act.

Contractor's Camp Plan – a document, submitted by the Company (Contractor) awarded the Great Bear Lake Site Remediation Project Contract that describes the set of procedures to be implemented during site activities that include specific details on camp locations, equipment totals and fuel volumes, with an Emergency Response Plan and Fire Safety Plan.

Construction - any activities undertaken to construct or build any components of, or associated with, the development of the Project, including any Construction activities undertaken during operations and closure phases of the Project.

Dogleg - the clearing of a line, trail, or right-of-way that is curved sufficiently so that no part of the clearing beyond the curve is visible when approached from either direction.

Durable Land - land that is able to withstand repeated use, such as gravel or sand with minimal vegetative cover.

Engagement Plan - a document, developed in accordance with the Board's *Engagement and Consultation Policy* and the *Engagement Guidelines for Applicants and Holders of Water Licences and Land Use Permits*, that clearly describes how, when, and which engagement activities will occur with an affected party during the life of the Project.

Engineered Structure - any structure or facility related to Water Use or the deposit of Waste that is normally designed and approved by a Professional Engineer, that are associated with the Construction, operation, closure and Reclamation of the Project.

Fuel Storage Container - a container for the storage of petroleum or allied petroleum products with a capacity of less than 230 litres.

Fuel Storage Tank - a closed container for the storage of petroleum or allied petroleum products with a capacity of more than 230 litres.

Greywater - all liquid wastes from showers, baths, sinks, kitchens, and domestic washing facilities but not including toilet wastes.

Habitat - the area or type of site where a species or an individual of a species of wildlife naturally occurs or on which it depends, directly or indirectly, to carry out its life processes.

Inspector - an Inspector designated by the Minister under the Act.

Minister - the Minister of Indian Affairs and Northern Development Canada or the Minister of the Government of the Northwest Territories – Department of Lands, as the case may be.

Ordinary High Water Mark - the usual or average level to which a body of water rises at its highest point and remains for sufficient time so as to change the characteristics of the land. In flowing waters (rivers, streams) this refers to the "active channel/bank-full level" which is often the 1:2 year flood flow return level. In inland lakes, wetlands, or marine environments, it refers to those parts of the Watercourse bed and banks that are frequently flooded by water so as to leave a mark on the land and where the natural vegetation changes from predominately aquatic vegetation to terrestrial vegetation (excepting water tolerant species). For reservoirs, this refers to normal high operating levels (full supply level).

Permittee - the holder of this permit.

Professional Engineer - a person who is registered with the Northwest Territories and Nunavut Association of Professional Engineers and Geoscientists in accordance with the Engineering and Geoscience Professions Act. S.N.W.T. 2006, c.16, as a Professional Engineer, and whose principal field of specialization is appropriate to address the components of the undertaking at hand.

Permafrost - ground (soil or rock) that remains at or below 0°C for at least two consecutive years.

Project - the Great Bear Lake Sites Remediation Project as described in Part A, item 1 of this Permit.

Reclamation - activities which facilitate the return of disturbed areas to viable and, wherever practicable, self-sustaining ecosystems that are compatible with a healthy environment, human activities, and the surrounding environment.

Secondary Containment - containment that prevents liquids that leak from Fuel Storage Tanks or containers from reaching outside the containment area and includes double-walled Tanks, piping, liners, and impermeable barriers.

Sewage - all toilet wastes and Greywater.

Spill Contingency Plan - a document, developed in accordance with Aboriginal Affairs and Northern Development Canada's *Guidelines for Spill Contingency Planning* (April 2007), that describes the set of procedures to be implemented to minimize the effects of a spill.

Sump - a man-made pit or natural depression in the earth's surface used for the purpose of depositing Waste that does not contain Toxic Material, such as non-toxic Drilling Waste or Sewage, therein.

Toxic Material - any substance that enters or may enter the environment in a quantity or concentration or under conditions such that it:

- a) Has or may have an immediate or long-term harmful effect on the environment or its biological diversity;
- b) Constitutes or may constitute a danger to the environment on which life depends; or
- c) Constitutes or may constitute a danger in Canada to human life or health.

Waste - any garbage, debris, chemical, or Toxic Material to be used, stored, disposed of, or handled on land, and also as defined in section 51 of the Act.

Waste Management Plan - a document, developed in accordance with the Board's *Guidelines for Developing a Waste Management Plan*, that describes the methods of Waste management from Waste generation to final disposal.

Watercourse - a natural body of flowing or standing water or an area occupied by water during part of the year, and includes streams, springs, swamps and gulches but does not include groundwater.

Part C: Conditions Applying to All Activities (headings correspond to subsection 26(1) of the Mackenzie Valley Land Use Regulations)

| | Condition | Category |
|----|---|-------------------------------|
| | 26(1)(a) Location and Area | |
| 1. | The Permittee shall not conduct any part of the land-use operation within 300 metres of any privately owned or leased land or structure, unless otherwise authorized in writing by the Board. | PRIVATE PROPERTY |
| 2. | The Permittee shall not conduct any part of the land-use operation within 300 metres of a cabin used for traditional activities, including trapping, hunting, or fishing, unless otherwise authorized in writing by the Board. | AVOID CABINS |
| 3. | The Permittee shall locate all camps on Durable Land or previously cleared areas. | CAMP LOCATION |
| 4. | The Permittee shall not conduct a quarry operation within 100 metres of the Ordinary High Water Mark of any Watercourse, unless otherwise authorized in writing by an Inspector. | QUARRY SETBACK |
| 5. | The Permittee shall not construct parallel lines or roads, unless an existing line or road cannot be used. | PARALLEL ROADS |
| 6. | The Permittee shall not conduct this land-use operation on any lands not designated in the complete application. | LOCATION OF ACTIVITIES |
| | 26(1)(b) Time | |
| 7. | At least 48 hours prior to the commencement of the land-use operation, the Permittee's Field Supervisor shall contact an Inspector at at (867) 669-2442 and (867) 669-2468. | CONTACT INSPECTOR |
| 8. | At least 48 hours prior to commencement of the land-use operation, the Permittee shall provide the following information, in writing, to the Board and an Inspector: a) the name(s) of the person(s) in charge of the field operation; b) alternates; and c) all methods for contacting the above person(s). | IDENTIFY AGENT |
| 9. | At least ten days prior to the completion of the land-use operation, the Permittee shall advise an Inspector of: a) the plan for removal or storage of equipment and materials; and b) when final cleanup and Reclamation of the land used will be completed | REPORTS BEFORE REMOVAL |

| | | |
|----|---|----------------------------|
| 10 | The Board, for the purpose of this operation, designates April 15, as spring break-up. | SPRING BREAK-UP |
| | 26(1)(c) Type and Size of Equipment | |
| 11 | The Permittee shall not use any equipment except of a similar type, size, and number to that listed in the complete application, unless approved by the Inspector. | ONLY APPROVED EQUIPMENT |
| 12 | The Permittee shall maintain fire-fighting equipment at the site in accordance with the <i>Government of the Northwest Territories' Forest Fire Prevention and Suppression Guidelines for Industrial Activities</i> . | FIRE-FIGHTING EQUIPMENT |
| | 26(1)(d) Methods and Techniques | |
| 13 | The Permittee shall Dogleg lines, trails and right-of-ways that approach Watercourses or public roads. | DOGLEG APPROACHES |
| 14 | Prior to the movement of any vehicle that exerts pressure on the ground in excess of 35 kPa, the Permittee shall scout proposed lines and routes to select the best location for crossing streams and avoiding terrain obstacles. | DETOURS AND CROSSINGS |
| 15 | The Permittee shall construct and maintain the overland portion of winter roads with a minimum of 10 cm of packed snow and/or ice at all times during this land-use operation. | WINTER ROADS |
| 16 | The Permittee shall not erect camps or store material, other than that required for immediate use, on the ice surface of a Watercourse. | STORAGE ON ICE |
| | 26(1)(e) Type, Location, Capacity, and Operation of All Facilities | |
| 17 | The Permittee shall ensure that the land use area is kept clean at all times. | CLEAN WORK AREA |
| 18 | The Permittee shall not locate any Sump within 100 metres of the Ordinary High Water Mark of any Watercourse, unless otherwise authorized in writing by an Inspector. | SUMPS FROM WATER |
| | 26(1)(f) Control or Prevention of Ponding of Water, Flooding, Erosion, Slides, and Subsidence of Land | |
| 19 | The Permittee shall install and maintain culverts such that scouring does not occur. | CULVERT SIZE |
| 20 | The Permittee shall insulate the ground surface beneath all structures associated with this land-use operation to prevent: | PERMAFROST PROTECTION |

| | | |
|----|--|------------------------------------|
| | <p>a) any vegetation present from being removed;</p> <p>b) the melting of Permafrost; and</p> <p>c) the ground settling and/or eroding.</p> | |
| 21 | The land-use operation shall not cause obstruction to any natural drainage. | NATURAL DRAINAGE |
| 22 | The Permittee shall minimize erosion by installing erosion control structures as the land-use operation progresses. | PROGRESSIVE EROSION CONTROL |
| 23 | The Permittee shall only utilize off-road vehicle travel in areas without snow-covered surfaces where required to complete works detailed in the RAPs. | OFF-ROAD VEHICLE TRAVEL |
| 24 | The Permittee shall prepare the site in such a manner as to prevent rutting of the ground surface. | PREVENTION OF RUTTING |
| 25 | The Permittee shall suspend overland travel of equipment or vehicles at the first sign of rutting. | SUSPEND OVERLAND TRAVEL |
| 26 | The Permittee shall not move any equipment or vehicles unless the ground surface is in a state capable of fully supporting the equipment or vehicles without rutting or gouging. | VEHICLE MOVEMENT FREEZE-UP |
| 27 | The Permittee shall not use any material other than clean water and snow in the Construction of ice bridges. | ICE BRIDGE MATERIALS |
| 28 | The Permittee shall not use any materials other than clean snow and water in the Construction of snow fills. | SNOWFILL MATERIALS |
| 29 | Prior to spring break-up or completion of the land-use operation, the Permittee shall clean up and either remove or v-notch all snowfills from stream crossings, unless otherwise authorized in writing by an Inspector. | REMOVE OR V-NOTCH SNOWFILLS |
| 30 | Prior to spring break-up or completion of the land-use operation, the Permittee shall clean up and v-notch all ice bridges, unless otherwise authorized in writing by an Inspector. | V-NOTCH ICE BRIDGES |
| 31 | The Permittee shall not cut any stream bank, unless otherwise authorized in writing by an Inspector. | STREAM BANKS |
| 32 | The Permittee shall minimize approach grades on all Watercourse crossings. | MINIMIZE APPROACH |
| 33 | The Permittee shall not ford wet streams unless otherwise authorized in writing by an Inspector. | NO FORDING OF STREAMS |

| | | |
|----|--|-----------------------------------|
| | | |
| 34 | The Permittee shall slope the sides of areas that require regrading to a minimum ratio of 2:1 vertical, unless otherwise authorized in writing by an Inspector. | EXCAVATION AND EMBANKMENTS |
| 35 | The Permittee shall not excavate land within 100 metres of the Ordinary High Water Mark of any Watercourse, unless otherwise authorized in writing by an Inspector. | EXCAVATE NEAR WATERCOURSE |
| | 26(1)(g) Use, Storage, Handling, and Ultimate Disposal of Any Chemical or Toxic Material | |
| 36 | Prior to the expiry date of this Permit or the end of the land-use operation whichever comes first, the Permittee shall backfill and restore all Sumps, unless otherwise authorized in writing by an Inspector. | BACKFILL SUMPS |
| 37 | The Permittee shall maintain a record of all spills. For all reportable spills, in accordance with the GNWT <i>Spill Contingency Planning and Reporting Regulations</i> , the Permittee shall: <ul style="list-style-type: none"> a) immediately report each spill to the 24-hour Spill Report Line (867) 920-8130; b) report each spill to an Inspector within 24 hours; and c) submit, to the Board and an Inspector, a detailed report on each spill within 30 days. | REPORT SPILLS |
| 38 | The Permittee shall dispose of all Toxic Material as described in the approved Waste Management Plan. | WASTE CHEMICAL DISPOSAL |
| 39 | The Permittee shall dispose of all Waste petroleum products by removal to an approved disposal facility or by incineration in a device designed for this purpose, as described in the approved Waste Management Plan. | WASTE PETROLEUM DISPOSAL |
| | 26(1)(h) Wildlife and Fish Habitat | |
| 40 | The Permittee shall take all reasonable measures to prevent damage to wildlife and fish Habitat during this land-use operation. | HABITAT DAMAGE |
| | 26(1)(i) Storage, Handling, and Disposal of Refuse or Sewage | |
| 41 | The Permittee shall adhere to the Waste Management Plan , once approved, and shall annually review the plan and make any necessary revisions to reflect changes in operations, technology, chemicals, or fuels, or as directed by the Board. Revisions to the plan shall be submitted to the Board for approval. | WASTE MANAGEMENT |

| | | |
|----|--|--------------------------------------|
| 42 | The Permittee shall dispose of all garbage, Waste, and debris as described in the approved Waste Management Plan, unless otherwise authorized in writing by an Inspector. | REMOVE GARBAGE |
| 43 | The Permittee shall dispose of all Sewage and Greywater as described in the approved Waste Management Plan. | SEWAGE DISPOSAL – PLAN |
| | 26(1)(j) Protection of Historical, Archaeological, and Burial Sites | |
| 44 | The Permittee shall not operate any vehicle or equipment within 150 metres of a known or suspected historical or archaeological site or burial ground, unless approved by the Board. | ARCHAEOLOGICAL BUFFER |
| 45 | The Permittee shall not knowingly remove, disturb, or displace any archaeological specimen or site. | SITE DISTURBANCE |
| 46 | The Permittee shall, where a suspected archaeological or historical site, or burial ground is discovered: <ul style="list-style-type: none"> a) immediately suspend operations on the site; and b) (b) notify the Board at (867) 598-2413 or an Inspector at (867) 669-2442, and the Prince of Wales Northern Heritage Centre at (867) 767-9347, extensions 71250 and 71251 | SITE DISCOVERY AND NOTIFICATION |
| 47 | At least 60 days prior to any new land disturbance, including new drill sites, the Permittee shall conduct an Archaeological Overview to identify areas of high and low potential for archaeological and burial sites and shall submit a summary report to the Board and the Prince of Wales Northern Heritage Centre. | Archaeological Overview |
| 48 | Prior to disturbance in areas of high potential for archaeological or burial sites identified in the Archaeological Overview, the Permittee shall conduct an Archaeological Impact Assessment of the sites where disturbance is planned and shall submit a summary report to the Board and the Prince of Wales Northern Heritage Centre. | AIA – High Potential |
| | 26(1)(k) Objects and Places of Recreational, Scenic, and Ecological Value | |
| | <i>This section left intentionally blank</i> | |
| | 26(1)(l) Security Deposit | |
| 49 | All costs to remediate the area under this Permit are the responsibility of the Permittee. | RESPONSIBILITY FOR REMEDIATION COSTS |
| | | |

| | 26(1)(m) Fuel Storage | |
|----|--|--|
| 50 | The Permittee shall: a) examine all Fuel Storage Containers and Tank for leaks a minimum once per day; and b) repair all leaks immediately. | CHECK FOR LEAKS |
| 51 | The Permittee shall not place any Fuel Storage Containers or Tanks within 100 metres of the Ordinary High Water Mark of any Watercourse, unless otherwise authorized in writing by an Inspector. | FUEL NEAR WATER |
| 52 | The Permittee shall ensure that all fuel caches have adequate Secondary Containment. | FUEL CACHE SECONDARY CONTAINMENT |
| 53 | The Permittee shall set up all refueling points with Secondary Containment. | SECONDARY CONTAINMENT – REFUELING |
| 54 | The Permittee shall not allow petroleum products to spread to surrounding lands or Watercourses. | FUEL CONTAINMENT |
| 55 | The Permittee shall mark all Fuel Storage Containers and Tanks with the Permittee's name. | MARK CONTAINERS AND TANKS |
| 56 | The Permittee shall mark all stationary fuel caches and fuel storage facilities with flags, posts, or similar devices so that they are at all times plainly visible to local vehicle travel. | MARK FUEL LOCATION |
| 57 | The Permittee shall have a maximum of 1,200,000 litres of fuel and 3,000 pounds of propane stored on the land use site at any time, unless otherwise authorized in writing by the Board. | MAXIMUM FUEL ON SITE |
| 58 | Within ten days of the establishment of any fuel cache, the Permittee shall report the location and quantity of the cache in writing to the Board and an Inspector. | REPORT FUEL LOCATION |
| 59 | The Permittee shall seal all outlets of Fuel Storage Containers and store the containers on their sides with the outlets located at 3 and 9 o'clock, except for containers currently in use. | SEAL OUTLET |
| 60 | The Permittee shall adhere to the Spill Contingency Plan , once approved, and shall annually review the plan and make any necessary revisions to reflect changes in operations, technology, chemicals, or fuels, or as directed by the Board. Revisions to the plan shall be submitted to the Board for approval. | SPILL CONTINGENCY PLAN |

| | | |
|----|--|--|
| 61 | Prior to commencement of the land-use operation the Permittee shall ensure that spill-response equipment is in place to respond to any potential spills. | SPILL RESPONSE |
| 62 | All equipment that may be parked for two hours or more, shall have a haz-mat/drip tray under it or be sufficiently diapered. Leaky equipment shall be repaired immediately. | DRIP TRAYS |
| 63 | The Permittee shall clean up all leaks, spills, and contaminated material. | CLEAN UP SPILLS |
| | 26(1)(n) Methods and Techniques for Debris and Brush Disposal | |
| 64 | Prior to the expiry date of this Permit, the Permittee shall progressively dispose of all brush and trees and shall complete all brush disposal; all disposal shall be completed. | BRUSH DISPOSAL/ TIME |
| 65 | The Permittee shall not clear areas larger than identified in the complete application. | MINIMIZE AREA CLEARED |
| | 26(1)(o) Restoration of the Lands | |
| 66 | The Permittee shall dispose of all overburden as instructed by an Inspector. | DISPOSAL OF OVERBURDEN |
| 67 | The Permittee shall store overburden and use it to recontour the site after operations are complete, unless otherwise authorized in writing by an Inspector. | SAVE AND PLACE ORGANIC SOIL |
| 68 | Prior to the expiry date of this Permit, the Permittee shall complete all cleanup and restoration of the lands used. | FINAL CLEANUP AND RESTORATION |
| 69 | Prior to the expiry date of this Permit, the Permittee shall prepare the site in such a manner as to facilitate natural revegetation. | NATURAL VEGETATION |
| | 26(1)(p) Display of Permits and Permit Numbers | |
| 70 | The Permittee shall display a copy of this Permit in each campsite established to carry out this land-use operation. | DISPLAY PERMIT |
| | 26(1)(q) Biological and Physical Protection of the Land | |
| 71 | If migratory birds or their nesting areas, or any species at risk are encountered during the course of operations, the Permittee shall minimize all activity so as to not disturb these animals. | MIGRATORY BIRD DISTURBANCE |
| 72 | Prior to the commencement of operations, the Permittee shall submit the Contractor's Camp Plan. | SUBMIT CAMP PLAN |

| | | |
|----|---|---------------------------|
| 73 | If any plan is not approved by the Board, the Permittee shall revise the plan according to the Board's direction and re-submit it to the Board for approval. | RESUBMIT PLAN |
| 74 | The Permittee shall adhere to the Engagement Plan, once approved, and shall annually review the plan and make any necessary revisions to reflect changes in operations or as directed by the Board. Revisions to the plan shall be submitted to the Board for approval. | ENGAGEMENT PLAN |
| 75 | All revised plans submitted to the Board shall include a brief summary of the changes made to the plan. | SUMMARY OF CHANGES |
