Subject: RE: S17L8-003 - Norman Wells Airside LTU - Sub-Liner Soil Quality Assessment Memo

Good Morning Andrea,

The SLWB has reviewed the soil quality data submitted and agree that all sub-liner soil samples meet the Water Licence criteria. The soils can be moved as requested.

Regards,
Bonnie

Subject: RE: S17L8-003 - Norman Wells Airside LTU - Sub-Liner Soil Quality Assessment Memo

Good Morning Andrea,

On behalf of ENR, after looking at the report I feel that it is safe to transport the previously approved soils back into the LTU area.

Erin

Subject: S17L8-003 - Norman Wells Airside LTU - Sub-Liner Soil Quality Assessment Memo

Hi Bonnie, Trevor and Erin,

Please find attached a memo presenting the soil chemistry results for the assessment of the sub-liner soil quality at the Norman Wells Airside LTU. You will note that all sub-liner soil samples met the applicable Water Licence criteria and no evidence of impacts to the sub-liner soils was observed.

We are requesting approval to place the previously approved treated soils that are stockpiled outside of the bermed area onto the sub-liner soils located within the berms. We would like to complete this in the next week if possible so please let us know if you have any questions or concerns regarding the attached memo.

Please review the attached and contact me with any questions or concerns.

Regards,
Andrea
