RE: Incomplete response for Land Use Permit and Water Licence for S19L1-003 and S19A-004

MGM Energy (“MGM”) is providing the requested additional information requested by the Sahtu Land and Water Board (“SLWB”) regarding the applications for a Land Use Permit (“LUP”) and Water Licence (“WL”) for the Colville Lake Area. The points below and attachments to this letter are MGM’s response to the 8 points raised by the SLWB on November 14, 2020.

- #1. On February 11, 2020 MGM provided the Sahtu Land Use Plan conformity table. It is attached to this document for ease of reference.
- #2. A closure cost estimate is attached to this letter.
- #3. Cheque #00008954 is attached to this letter in the amount of \$30.00 for the Water Licence Application fee.
- #4. Personal Contact information will be provided prior to the commencement of activities. It will be included with the notification of activity.
- #5. MGM interprets the SLWB comment as an acceptance of the Waste Management Plan submitted with the application.
- #6. A Closure and Reclamation Plan is attached to this letter.
- #7. The watercourse crossings will be the same as in the original applications which were screened and approved. Camp locations will be the same as what was previously screened and approved in the previous applications. The only difference is that MGM may utilize some of the well sites as camp sites. In the original activity and approved under the previous screenings a mobile sleigh camp was used during access construction activities, this is an option for the current activity as well. No new disturbances are planned for camp locations. A potential camp schematic is enclosed with this letter.
- #8. Fuel storage will be as follows: Twelve 50 m³ double wall tanks for diesel, ten to 12 100-pound bullets for propane, ten 45 gallon drums for gasoline and ten 45 gallon drums for

aviation fuel (if needed).

If you have any questions regarding the above or enclosed please do not hesitate to undersigned via e-mail at terence.hughes@paramountres.com or via phone at 403-206-3859.

Respectfully,
MGM Energy
