Good Morning Patricia,

This is perfect! It demonstrates due diligence to work with MVFL operator to ensure the security of the line while the construction is taking place. I do not see this as changing the scope of the project – it is an adaptive mitigation measure to protect infrastructure.

Have a great weekend.
Bonnie

Subject: S20E-005 – Prohibition Creek Access Road Construction - Notification

Good morning Bonnie,

The Department of Infrastructure is providing notification to the Sahtu Land and Water Board of upcoming work related to a section of the Mackenzie Valley Fibre Optic Link (MVFL) located along the Prohibition Creek Access Road currently under construction.

Over the next week, Northern Lights General Partnership, the operator of the MVFL, will be leading the placement of temporary fibre optic cable between Canyon Creek and Christina Creek. Placement of the temporary cable will be non-intrusive and will involve splicing the existing fibre optic cable and utilizing a dozer (or similar equipment) to pull a temporary fibre optic cable over uneven terrain and through snow to place the cable on the ground, along the treeline and away from construction activities. The temporary fibre is intended to remain in place for the duration of construction, or until a permanent solution is found.

If there are any questions or concerns about this notification, please contact the undersigned.

Thank you,

Mársı | Kinanāskomitin | Thank you | Merci | Haj' | Quana | Qujannamiik | Quyanainni | Máhsı | Máhsı | Mahsi
