Re: KP 158 Little Smith Creek – 2021 Annual Water Licence Report – S20L1-001 – Near Tulita, NT

Dear Tulita Distribution List Members,

Sahtu Land and Water Board (SLWB) received Enbridge Pipelines (NW) Inc. (Applicant) 2021 Annual Water Licence Report on March 31st, 2022 and reviewed it for conformity with the requirements of the Licence and the need to send the report out for a public review.

Board staff determined that posting the documents on the Online Review System (ORS) for public review was not necessary and have provided a summary of the 2021 Project activities below:

- The Applicant identified a few minor deficiencies on the Right of Way (ROW) that were scheduled to be fixed during the winter of 2021/2022 with all tasks being completed in February of 2022.
- The Applicant will be conducting a site inspection in late June or July of 2022 for their post Construction Environmental Monitoring studies with additional reclamation work occurring in winter of 2022/2023 if any additional site deficiencies are found.

The full 2021 Annual Water Licence Report and cover letter can be viewed on our registry at <https://slwb.com> under S20L1-001.

Please contact the Applicant at (403) 231-3948 or by e-mail at Karin.schmidt@enbridge.com if you have comments or questions related to the annual reporting.

Yours sincerely,

Benjamin Roy
