

Slater River - LUP S20X-006, WL S20L1-004 Ongoing Reclamation, Care and Maintenance

Waste Management Plan Revision Update Tracking / Section Descriptions

Previous Document Versions Listed on the SLWB Public Registry under LUP S13X-003, WL S13L1-006 and LUP S13A-002, WL S13L1-005

Document / General Revisions & Section	Page #	Revisions / Descriptions
Appendix C - Waste Management Plan		
General Revisions		- No active camps for personnel will be utilized - No active waste management operations to take place on the well sites.
Section 1.1 Slater River Project, Husky Oil Operations Limited (Husky)	3	- Figure 1-2 updated area and project components covered by the Waste Management Plan (WMP)
	3	- Updated Table 1-1: Project component locations in Lat / Long DD NAD27, and Work Category
	4	- Updated activities which may require waste management
	5	- Table 1-1, and Table 1-2 schedule of activities revised for ongoing inspections, reclamation and care and maintenance
	6	- Corporate contact changes regarding the WMP.
Section 1.5 Project Description Details and Relevant Land Use Permits and Water Licences	9	- Added section and Table 1-3 Relevant Husky Land Use Permits / Water Licences to support waste management
Section 1.6 Proposed Locations for Waste Management Activities	10	- Locations and GPS coordinates updated for ongoing WMP activities in Table 1-4
Section 3.0 Waste Management at Slater River	13	- General scope of operations and personnel numbers required for operations
Section 3.1 Potential Chemicals / Fuels on Site	13	- Updates list of chemicals to be used in Table 1-3
Section 3.2 Domestic Waste and Incineration	16	- Table 3-3 Updates volume of domestic wastes and ash based on personnel numbers
Section 3.3 Sewage Waste	16	- Updated description of sewage waste management and methodology depending on personnel numbers
Appendix A-1 Waste Management Summary Table	25	- Updated table of waste streams and anticipated volumes based on maximum personnel activities
Appendix A-2 (B) Safety Data Sheets	27	- Updated Safety Data Sheets (referenced as Appendix B in section 3.1)

Slater River - LUP S20X-006, WL S20L1-004 Ongoing Reclamation, Care and Maintenance

Emergency Response Plan, Spill Contingency & Wildfire Smoke Exposure Revision Update Tracking / Section Descriptions

Previous Document Versions Listed on the SLWB Public Registry under LUP S13X-003, WL S13L1-006 and LUP S13A-002, WL S13L1-005

Document / General Revisions & Section	PDF Page #	Revisions / Descriptions
Appendix D -		
Emergency Response Plan (ERP)		
General Revisions - *using PDF page numbers - Large Document		- Full update of the NWT ERP based on core update completed on all Husky Area ERP's - Page numbers below coincide with SLWB public registry PDF page numbers
Section 1.0 Activation / Procedures	6 - 253	- ERP full Husky revised core, PDF Page Numbers per section to follow
Section 1.1 Activation Charts and Graphics	6 - 25	- Updated ERP activation corporate procedures, including Incident Command System Forms
Section 1.2 Level of Emergency	26 - 29	- Updated ERP incident classification and response
Section 1.3 Response Team Duties	30 - 85	- Describes roles and responsibilities of personnel based on the Incident Command System
Section 1.4 General Scenario Response	86 - 205	- Updated description of various scenarios and potential mitigation procedures
Section 1.5 Forms	206 - 253	- Updated Incident Command System forms and Public Safety forms
Section 2.0 Guidelines	254 - 323	- Government / Regulator notification requirements and roles, core update
Section 2.1 Government Notification Requirements	254 - 267	- Notification Matrices and Government Roles based on Federal and Territorial Agencies
Section 2.2 Public Protection Methods	268 - 283	- Procedural guidelines to ensure protection of public in the event the ERP is triggered
Section 2.3 Media	284 - 287	- Updated media and press release guideline
Section 2.4 Plan Principles	288 - 307	- Describes ERP purpose, Incident Command System Structure and associated facilities, record keeping and required training
Section 2.5 Definitions and References	308 - 323	- Describes and updates any definitions, responder safety control zones, and acronyms
Section 3.0 Emergency / Stakeholder Directory	324 - 345	- Updated internal and external contacts
Section 3.1 Husky Personnel	324 - 327	- Updated Husky emergency telephone numbers and corporate contact

Section 3.1 Baseline Assessments	8 - 9	- Updated baseline assessments to include more dialogue regarding previous LUP and WL's listed in Table 2-1.
Section 4.1 Project Location and Access	9	- Updated Maps referenced to Appendix A, and information regarding 'as built' survey complete
Section 4.2 Site History	10	- Updated site history to include well abandonment information
Section 4.4 Project Summary	10 - 18	- Update of the Slater River Project reclamation and ongoing care and maintenance
Section 6.2 Opportunities for Progressive Reclamation	19	- Update of project components requiring ongoing progressive reclamation
Section 6.3 Completed Progressive Reclamation	20	- Review of progressive reclamation for Quarry B, Airstrip Access Road, and Winter Access
Section 8.0 Integrated Schedule of Activities	21	- Update of the inspection and maintenance schedules over the time span of the LUP and WL
Section 10.0 Financial Security	21 - 22	- Update of financial security using the RECLAIM 7.0 Spreadsheet - Oil and Gas (2017)
Appendix A - Overview Maps	25 - 28	- Update of Overview Maps
Appendix B - Detailed Maps	29 - 36	- Update of the detailed project component maps derived from the as built survey program
Appendix C - RECLAIM 7.0 Spreadsheet, Oil and Gas (2017) Work Book	37 - 49	- Updated back up documentation for financial security

Slater River - LUP S20X-006, WL S20L1-004 Ongoing Reclamation, Care and Maintenance

Quarry 'M' Management Plan Revision Update Tracking / Section Descriptions

Previous Document Versions Listed on the SLWB Public Registry under LUP S13X-003, WL S13L1-006 and LUP S13A-002, WL S13L1-005

Document / General Revisions & Section	Page #	Revisions / Descriptions
Appendix G - Quarry M Management Plan		
General Revisions		- Update of the scope of work to only include Quarry M, as this is the only open quarry - Update the document per the 2015 GNWT Guidelines
Section 1.0 Introduction	2	- Table 1-1 update of project components to include only Quarry M, and show that Quarry B is in a state of reclamation, and is closed
Section 2.1 Evaluating Resources	2 - 3	- Update of information pertaining to volumes and profile of Quarry M
Section 3.1 Baseline Assessments	8 - 9	- Updated baseline assessments to include more dialogue regarding previous LUP and WL's listed in Table 2-1.
Section 3.2 Site Design	4	- Update to describe borrow material usage and stabilization work completed in Quarry M
Section 3.3 Water Management	5	- Update of work completed to manage water on site with overview photos Figure 3-1 and 3-2
Section 3.4 Development Timing	7	- Updated with status of no further development plans at this time
Section 5.0 Operations	8	- Update of ongoing inspections and operations for duration of LUP and WL
Section 7.0 Closure and Reclamation	9	- Updated to reflect past work completed and the newest version of the ICRP
Appendix A - Mapping	11 - 14	- Updated maps: as-built dimensions, original profile and profile post-construction

Slater River - LUP S20X-006, WL S20L1-004 Ongoing Reclamation, Care and Maintenance

Engagement Plan Revision Update Tracking / Section Descriptions

Previous Document Versions Listed on the SLWB Public Registry under LUP S13X-003, WL S13L1-006 and LUP S13A-002, WL S13L1-005

Document / General Revisions & Section	Page #	Revisions / Descriptions
LUP S20X-006 WL S20L1-004 - Engagement Plan Update		
General Revisions		- Updated plan to reference links to previous LUP and WL engagement plans as reclamation, care and maintenance discussions began in 2018. Table 1-1 lists previous LUP and WL documents - Updates referencing the ongoing scope of work including reclamation, care and maintenance
Section 1 Stakeholder Engagement	3	- Update of COVID 19 restrictions and remote consultation methods - Table 1-2 updated stakeholder list receiving the remote consultation package
